

Karthikeya Barnala

Vizianagaram — karthikeyabarnala0@gmail.com — +91 8341834232 — LinkedIn — GitHub — CodeChef — LeetCode

Profile

Final-year B.Tech Computer Science and Engineering student with strong fundamentals in data structures, algorithms, object-oriented programming, databases, and enterprise application development. Experienced in building web applications, AI-enabled platforms, and AR-based solutions using Java, Python, JavaScript, SQL, and modern frameworks. Interested in large-scale, secure, and reliable software systems that support digital transformation and analytics-driven decision making.

Education

GMR Institute of Technology (GMRIT)	2023 – 2027
B.Tech in Computer Science and Engineering	CGPA: 8.66/10
Fiitjee Junior College	2020 – 2022
Intermediate (MPC)	Percentage: 86.5%
Sri Chaitanya School	2021
SSC	Percentage: 100%

Internship

Summer Intern, CEMS – Visakhapatnam	May 2025 – June 2025
- Built AR prototypes for educational institutions aligned with digital learning requirements. - Collaborated with cross-functional teams to deliver working prototypes within timelines. - Conducted testing with 100+ students and educators, improving usability and interaction.	

Academic Projects

Dynamic Resume Builder Platform	2025
<i>MERN, Tailwind CSS, JWT, REST APIs</i>	
Live Project	
- Developed a full stack resume automation platform with secure authentication. - Enabled real-time preview and multi-template PDF export, reducing preparation effort by 60%.	
Farmer to Consumer AI Platform	2026
<i>Python, Flask, TensorFlow, MySQL</i>	
- Built a web platform connecting farmers and consumers directly, improving transparency. - Integrated ML models for food detection, price prediction, and crop recommendation (85% accuracy). - Designed REST APIs with MySQL schema supporting 1,000+ concurrent users.	
AR App for Cultural Heritage Preservation	2026
<i>Unity, AR Foundation, C#</i>	
- Created an AR mobile app overlaying interactive 3D models on monuments and artifacts. - Achieved 90% positive feedback from 50+ participants in testing sessions.	

Technical Skills

Programming Languages: Java, Python, C, JavaScript
Web & Enterprise Technologies: Spring Boot, Node.js, React, Angular, Flask, HTML5, CSS3, Tailwind CSS, RESTful APIs
Databases: MySQL, SQL, indexing
Core Computer Science: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks
AI/ML & Data: TensorFlow, Python data processing, model training and evaluation
Tools & Platforms: Git, GitHub, Unity (AR/VR Development), Linux, Visual Studio Code
Professional Skills: Problem solving, analytical thinking, communication, teamwork, time management

Certifications

- Coursera: Data Analytics for Enterprise Decision Making
- NPTEL: Ethical Hacking (Enterprise IT Security)
- NPTEL: Joy of Computing Using Python
- JNTUGV: Project Expo participation

Achievements & Activities

- Practiced competitive programming on CodeChef and LeetCode, solving 300+ problems focused on data structures and algorithms.
- Participated in college hackathons and project expos, showcasing AI/ML and AR/VR applications with positive feedback from peers and faculty.
